Resource Guide

Music Education

Please note: this guide is only an indication of resources in the Music Library for studies in music education. It is not a comprehensive listing of all relevant materials but this guide does provide you with the resources to begin your research.

Search Tips:

Selecting search terms:
When you are just beginning your research, discovering which terms to search on can be daunting. Here are a couple approaches:
- Conduct a Subject search on the phrase Music Instruction and Study Juvenile. This will pull up a large list of subject headings, each linked to a list of related materials.
- When you find a good resource, pull out key terms or phrases from the bibliographic record to use in Keyword search.

Limiting searches by media type:
Searches can be limited to media type. Either conduct an Advanced Keyword search and limit your search printed materials (for books), music recordings (for sound recordings), or visual media (for DVDs and VHS) or conduct your search and click the limit/sort button at the top of the search results list.
